DIARY NOTES

DD/S

24 January 1966

1. Outplacement System. Colonel White asked for a status report on the development by the Office of Personnel of an outplacement system. Such a system was agreed upon following a meeting with Mr. Kirkpatrick, Mr. Echols, [REDACTED] et al, some months ago. I called [REDACTED] and [REDACTED] asked that such a capsuled briefing be arranged. She advised that [REDACTED] has such a briefing on hand which he is planning to use in briefing the ad hoc Retiree Placement Committee, set up as a result of the above referenced Kirkpatrick meeting. Time for such a briefing is being asked of Colonel White.

2. Emergency Power Test, 23 January [REDACTED] reported this morning the results of the Emergency Power Test on Sunday. A detailed report will follow. The emergency power generator for the Communications Signal Center did not work properly and they were without power for about 20 to 40 minutes. This has happened before and the situation has not been rectified. I called both [REDACTED] and George Meloon and told them to get together and come up with a system of emergency power that will guarantee the Signal Center's having adequate power during an emergency. I mentioned that Commo has had trouble in the past with emergency power and they indicated they would rather take their chances on the VEPCO power. This is not enough to meet emergency requirements and I therefore insisted on an adequate system. I requested immediate action.

25X1A

3. [REDACTED] reported the following:

a. TSD move. [REDACTED] reported that the move of TSD from [REDACTED] to the South Building over the weekend went well. It should be completed by Wednesday.

25X1A

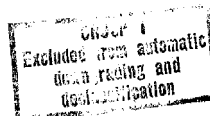

b. Snow Removal. Snow removal at the Headquarters building over the weekend presented no problem.

4. DCI Request. The DCI directed that Security accompany the char force in the cleaning of Mr. FitzGerald's office. Security has made the necessary arrangements. [REDACTED] reports that we have been losing our cleared char force to NSA as they are paying a higher hourly-wage rate and our char force have been gravitating to the higher pay. Security is being asked, with Logistics, to work this out with GSA and prevent this from happening. GSA is sending us a number of uncleared people as a result, which is unsatisfactory for our purposes.

9. [REDACTED] Subject works as a courier for Logistics. That Office is preparing a letter of reprimand for tardiness, etc. I asked Mr. Meloon to give me the full story and not send a letter until I requested it. Since subject will have completed his probationary year in early February, I am asking Dr. Tietjen to re-evaluate subject and give us a confidential report. I discussed the above with Colonel White and we should move quickly on this action.
